М.И. Мухоморова

A vibrant, cartoon-style illustration of a busy classroom. A teacher with glasses and a large green balloon on his head stands at the front, smiling. Several children are engaged in various activities: one boy plays a drum, a girl uses a vacuum cleaner, another boy looks through a telescope, and others are at desks with computers or playing with blocks. The room is decorated with a star on the wall, a clock, and a chalkboard showing a drawing of a green balloon.
